After The Butile.

March the 4th, in the year of our Lord 1885, will be a grorious day for the Republic. It will be the great coronation day of Democratic government. The long banished Prince will return in triumph and be once more enthroned in the Capitol amid the applause of the enraptured millions. Where, Oh, where is the bold Plumed Knight? My countrymen, what a fall was there! On the silent battlefield there is nothing left but a broken lance, a frizzled feather, the tattered remnant of a bloody shirt, the ashes of a burnt letter, and an old "riderless

Let no man reproach East Tennes see, henceforth, for disloyalty to Democracy. It is true we are in the minority, but we never "flicker." We march into every political fight thirty thousand strong. Turn the Rasents Out.

If the offices of the government are still to be held by the republicans, where is the justice of it? If the government needs reform, can it be best reformed by keeping the rascals in? Can civil service reform be accomplished by continueing civil service violators in office? Where is the sense in setting a new hen on the same old rotten eggs? There is little doubt that the thing which most needs to be preached to this generation of Americans, by ministers of the Gospel, by both clerical vate authority, is a sense of honor. It must be shown and insisted upon that is employed by another to do a certain work imposes an obligation to fulfil the duties of the place with an honorable and disinterested regard for the interests of the employer. ### Blaine and the Senatorship. There are two very conclusive rea-

sons why Mr. Blaine won't be elected United States Senator by the Pennsyl vania Legislature. They are-

1. No one who knows anything about Mr. Blaine can believe for a moment that he would either wish or accept such an honor. While never unmindful of his Pennsylvania birth and doubtless specially gratified and proud of his \$1,000 majority here, he has been identified with Maine, his adopted State, since his earliest political advancement, and after Maine had made him Legislator, Congressman, Senator, Cabinet officer and Presidential candidate, he would not seek or accept Senatorial honors from

any other State. 2. No one knows better than Mr. Blaine that he could not be elected Senator by the Pennsylvania Legisture. He is personally and unqualifiedly com mitted to the support of Cameron's reelection, and if he were not, Cameron has the Legislature and will elect him-
